## 12 Options

## 14 Complete Fitout Solutions

## Functional & modern - Fast

Whether you need functional, everyday furniture, or modern inspirational furniture, our carefully selected **Smart Desk** range will provide your ultimate solution. The **Smart Desk** range is available for fast **quick-ship** delivery Australia wide.

## Specially for you

**Smart Desk** is **designed for Australian conditions** and supports all aspects for your workstation needs – from individual desks and executive workstations to workstation clusters for team building and networking. **Combine Smart Desk** with any of our other product ranges including tables, chairs and functional accessories for the ultimate office solution.

## Built to last

Work surfaces are subject to a high degree of wear in offices, so all **Smart Desk** furniture is constructed from melamine faced furniture grade particleboard.

Melamine is one of the **most durable** conventional furniture surfaces available.

Durability of the edging rates next in importance to the surface material. Our experience leads us to use Solid ABS hard-edge which is **permanently bonded** to all exposed edges. Hard-edging is **impact resistant** and provides an almost seamless wood grain appearance.

Load bearing panels on desks and workstations, such as tops and sides, are constructed from Heavy Duty 25mm substrate. 18mm thickness backs to all storage units to ensure that your furniture is robust and built to last. All fabric on screens is foam-backed, bonded to substrate.

## Good Wood

We are a responsible corporate citizen that is concerned about caring for the environment in which we live and work. To meet increasing demand for even more environmentally friendly building products, we also have an ultra-low emission EO board available on request. EO board is recognised by ECO Specifier and is suitable for use in all Green Star Rated buildings to enhance the overall environmental performance ratings.

95% of the timber substrate used in our furniture is obtained from sustainable forests, 70% from FSC certified forest plantations and includes 75% pre-consumer recycled content & 10% post-consumer recycled content. Our melamine panels have a high '**E1**' Grade rating and, of course, conform to the Australian LFE Emission Standard. Panels meet World Health Organisation (WHO) requirements as a non-toxic material and are recyclable - in short **eco-friendly!**

You know you are **buying responsibly** when you see the Good Wood mark.

## Peace of mind - Guaranteed

All **Smart Desk** furniture is guaranteed against faulty parts and workmanship for 5 years of normal use (8hours/day). As common sense dictates, we make it a condition that you use your furniture for the purpose it was designed for.
